### **DETAILED ACTION**

1. Applicant's Amendment filed February 17, 2006 has been entered. Claims 1 – 4 have been amended. New claims 5 – 9 have been added.
2. Claims 1 – 9 are pending.
3. This application is in condition for allowance except the following formal matter.

### ***Drawings***

4. Figure 3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

5. Claims 1 – 9 objected to because of the following informalities:

In **claim 1, lines 7 – 12**, a plurality of first word lines and a plurality of second word lines are claimed to be provided for/to “**each**” of the memory cells ... from the memory cell array. This contradicts the with the specification and figure drawings, in which each memory cell in the cell array is coupled to one of a plurality of first word lines and one of a plurality of second word lines. In other words, no single memory cell is specified to be coupled to the plurality of first and second word lines.

Appropriate correction is required.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
7. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
8. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
